showcasing solutions that redefine protection and enhance operational efficiency across various platforms.

Among the highlights of MKU's offerings at Eurosatory 2024 is:

The KAVRO Protection solution, designed to provide robust protection and performance enhancements:

- **Rifle-Rated Helmets (KAVRO DOMA 360):** Witness MKU's top-of-the-line rifle-rated helmets, meticulously engineered to withstand rifle rounds, ensuring the utmost safety for soldiers in the battlefield.
- **Advanced Platform Protection Solutions:** Discover MKU's cutting-edge solutions tailored for safeguarding critical platform assets across land, air, and sea domains
- **Female Body Armour:** MKU offers a comprehensive selection of body armor specifically designed for the female form, prioritizing both protection and comfort, ensuring that every female soldier receives optimal support on the battlefield.
- **VPAM Helmets:** Explore MKU's latest VPAM-certified helmet, setting a new standard in ballistic protection against a variety of threats.

The Netro Optronics solution, featuring advanced devices to enhance situational awareness and precision targeting:

- **NM 3200 Night Vision Monocular:** Experience MKU's state-of-the-art night vision device, offering enhanced visibility and operational effectiveness in low-light conditions.
- **MW 5000 Sighting Systems:** Designed for compatibility with 40mm Grenade Launchers (MK 19) and 50 Caliber machine guns (M2 Browning), MKU's sighting systems empower soldiers with accuracy and precision, ensuring mission success with precision hit capability and no guess work.

"At MKU, we are committed to empowering soldiers with the most advanced and reliable defence solutions," said Karan Gupta, vice president International Sales at MKU. "Our participation at Eurosatory 2024

underscores our dedication to innovation and our unwavering support for those who serve on the front lines. We are proud to showcase

our latest offerings, which not only protect but also empower soldiers with confidence to excel in their missions."

Visit MKU at **Eurosatory 2024 (HALL NO-6, k50)** to discover first-hand experience of how our innovative solutions are reshaping the modern needs of defence.
