## PRESS RELEASE

---

### TIM'S APPOINTED BY COGES AT EUROSATORY 2026 FOR ON-SITE MODEL MAINTENANCE

Every edition of Eurosatory brings together the biggest names in the global defence industry. Exhibitors deploy complex, high-value — sometimes one-of-a-kind — models, displayed over five days to thousands of visitors.

For the 2026 edition, TIM'S, TRYAME's specialist service for end-to-end model management at trade shows, has been appointed by COGES to handle the maintenance of models exhibited at Eurosatory 2026, the international land and airland defence and security exhibition. TIM'S will be located in Hall 5A, stand B485.

Offered to exhibitors under terms set by COGES, the service covers the full lifecycle of a model on the show floor — from pre-show audit through to return or decommissioning — ensuring flawless presentation from opening day to closing.

**“Our job is to make sure exhibitors never have to think about their models during the show. They should simply be there, in perfect condition, from the first day to the last.”**

A damaged model on your stand can undermine your image in front of clients, official delegations, and strategic partners.

By entrusting their models to TIM'S, exhibitors free their sales, marketing, and technical teams to focus on what matters most: demonstrating, engaging, and winning business.

See you at Eurosatory 2026. The TIM'S team will be on hand to meet exhibitors and discuss your needs.
